CAREER OBJECTIVE

Software Developer pursuing a Bachelor of Technology in Computer Science and Engineering with hands-on experience in designing and developing modern web applications, AI-powered solutions, and software systems. Built 15+ real-world projects across Event Management, Artificial Intelligence, Healthcare, Finance, Weather Forecasting, and Educational Technology domains. Experienced in HTML, CSS, JavaScript, React.js, TypeScript, Python, Git, and REST APIs. Passionate about solving real-world problems through scalable software solutions, responsive user interfaces, and continuous learning while contributing effectively to innovative development teams.

EDUCATION

Bachelor of Technology (B.Tech)
Computer Science and Engineering
JNTUH University College of Engineering, Jagtial
2023 – 2027

Intermediate (MPC)
Telangana State Board of Intermediate Education
2021 – 2023

Secondary School Certificate (SSC)
Board of Secondary Education, Telangana 2021

PROJECTS

Crescence 2K26 – Event Management Platform

HTML5 | CSS3 | JavaScript

- Developed a responsive event management platform to streamline registrations, event scheduling, announcements, and participant management.
- Designed an intuitive, mobile-friendly user interface ensuring seamless accessibility across multiple devices.
- Improved event coordination by centralizing technical fest information and registration workflows.

🌐 Live Demo <https://crescence2k26.in/>

Weather Forecast Application

React.js | JavaScript | REST API | CSS3

- Built a modern weather forecasting application providing real-time weather updates and dynamic forecasts.
- Integrated weather APIs to display current conditions, hourly forecasts, weekly forecasts, and air quality information.
- Designed a responsive and interactive user interface optimized for desktop and mobile devices

🌐 Live Demo <https://weatherapp-smoky-three.vercel.app/>

Personal Portfolio Website

React.js | JavaScript | CSS3

- Designed and developed a professional portfolio website showcasing projects, certifications, internships, and technical expertise.
- Implemented responsive layouts, smooth navigation, and optimized performance for an enhanced user experience.
- Integrated professional profiles and showcased projects to strengthen personal branding.

🌐 Live Demo <https://varaprasad-blush.vercel.app/>

Industrial AI Hackathon – AI Solution Platform

React.js | JavaScript | AI | Web Technologies

- Developed an AI-powered web application as part of an Industrial AI Hackathon to address real-world industrial challenges.
- Designed secure authentication and an interactive dashboard for efficient user experience.
- Focused on scalable architecture, responsive design, and practical AI-driven problem solving.

🌐 Live Demo <https://industrial-ai-hackathon.vercel.app/>

Economic Crisis Detection System

HTML5 | CSS3 | JavaScript

- Developed a web-based application for analyzing economic indicators and visualizing financial trends.
- Presented interactive insights to support better understanding of potential economic downturns.
- Designed a responsive interface focused on data accessibility and effective information visualization.

🌐 Live Demo <https://economiccrisis.netlify.app/>

AI Resume Analyzer

React.js | JavaScript | AI | REST API

- Developed an AI-powered Resume Analyzer that evaluates resumes and provides intelligent feedback for improvement.
- Implemented automated resume analysis with a responsive and user-friendly interface.
- Enhanced usability by delivering structured recommendations to improve resume quality.

🌐 Live Demo <https://resumeanalyzer-one-zeta.vercel.app/>

TECHNICAL SKILLS

Programming Languages

Python • Java • JavaScript (ES6+) • TypeScript • C++

Frontend Development

HTML5 • CSS3 • Bootstrap • React.js • Responsive Web Design • UI/UX Fundamentals

Backend Development

Node.js (Basics) • Express.js (Basics) • REST API Integration

Databases
MySQL • MongoDB

Developer Tools

Git • GitHub • VS Code • Postman • Vercel • Netlify

Cloud & Platforms

Oracle Cloud Infrastructure (OCI) • AWS Fundamentals • Microsoft Azure Fundamentals

Analytics & Visualization

Power BI

Core Computer Science

Data Structures & Algorithms • Object-Oriented Programming (OOP) • Database Management System (DBMS) • Operating Systems
• Software Engineering • SDLC

AI & Emerging Technologies

Generative AI Fundamentals • AI-Powered Web Applications • Prompt Engineering

Professional Skills

Problem Solving • Debugging • Version Control • API Integration • Responsive Design • Team Collaboration

CERTIFICATIONS

- Oracle Cloud Infrastructure (OCI) AI Foundations – Oracle

- Generative AI Fundamentals – FutureSkills Prime (Government of India)
- Full Stack Web Development – GeeksforGeeks
- JavaScript Programming (Beginner to Advanced) – GeeksforGeeks
- Python Programming – GeeksforGeeks
- DevOps Fundamentals – GeeksforGeeks
- Python Programming – HackerRank
- Java Programming (Basic) – HackerRank
- Data Visualization with Power BI – Microsoft Learn
- Cloud Computing Fundamentals – AWS
- Cloud Computing Fundamentals – Microsoft Azure

PROFESSIONAL EXPERIENCE

Main Coordinator | Crescence 2K26 Technical Fest JNTUH University College of Engineering, Jagtial

- Led the planning and execution of the department's annual technical fest.
- Coordinated event scheduling, registrations, and cross-functional teams.

Hackathon Organizer | College Technical Fest JNTUH University College of Engineering, Jagtial

- Organized and managed a college-level hackathon from planning to successful execution.
- Coordinated participants, judges, mentors, and event logistics.

Web Development Intern | ProDigy InfoTech June 2026 – July 2026 | Virtual Internship

- Developed responsive web applications using HTML, CSS, JavaScript, and React.js.
- Built real-world projects including a Weather App, Stopwatch, Landing Page, and Tic-Tac-Toe Game.
- Integrated REST APIs and managed source code using Git and GitHub.

Frontend Development Intern | Future Interns 2026 | Virtual Internship

- Developed responsive frontend interfaces using modern web technologies.
- Improved UI/UX, application performance, and cross-device compatibility.
- Collaborated on project implementation following industry development practices.

Software Development Intern | CodeAlpha 2026 | Virtual Internship

- Developed an interactive Flash Card Learning Application using HTML, CSS, and JavaScript.
- Applied frontend development, debugging, and software engineering best practices.
- Successfully completed assigned project milestones within internship timelines.
